👑 Boss User Guide

The Boss role provides a full overview of all Sales users.

---

1. View Overall Stage Summary

At the top of the page, you can see total project counts for each stage.

This provides a quick snapshot of:

- Pipeline distribution
- Bottlenecks
- Overall sales progress

---

2. View Sales Lanes

Each Sales user has their own “lane.”

You can:

- See how many projects each Sales owns
- Track which stage each project is in
- Compare performance across Sales users

---

3. Recycle Bin (Management View)

The Boss can:

- View all deleted projects
- See the original owner of each project
- Restore projects
- Permanently delete projects (Boss only)

---

4. Typical Use Cases

- Weekly sales review
- Monitoring pipeline health
- Identifying stalled opportunities
- Managing accidental deletions
